Architecture**

Dear Mr. Maxson:

**SUBJECT: Section 106 (NHPA) Consultation  
Ambulatory Care Clinic – Proposed Installation of Photo Voltaic Solar Panels  
Spark M. Matsunaga Medical Center  
Located at 459 Patterson Road  
Tripler Army Medical Center (TAMC)  
Honolulu, Island of Oahu  
TMK: (1) 1-1-012:005**

Thank you for the submittal of the proposed work at Tripler Army Medical Center (TAMC). TAMC "is in the process of being nominated for the National Register of Historic Places and designation as a National Historic Landmark (NHL).

Proposed work involves the installation and operation of a solar photo voltaic (PV) system. Approximately 55kW of PV solar panels are proposed to be located on the roof of the Spark M. Matsunaga Medical Center's, Veterans Affairs (VA) Healthcare System, Ambulatory Care Clinic (Clinic).

The Clinic was built in 1999, less than 50 years old and the PV panel location will not be readily visible from the public's point of view. Therefore, we concur that the determination for the proposed project is "no adverse effect." Thank you for your assistance and the opportunity to comment. Should you have any questions regarding architectural concerns, please call Susan Tasaki, at (808) 692-8015.

Sincerely,

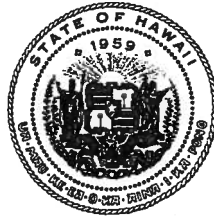

A handwritten signature in black ink, appearing to read "Nancy A. McMahon".

Nancy A. McMahon  
Deputy State Historic Preservation Officer

Architecture

Dear Colonel Margotta:

**SUBJECT: Section 106 (NHPA) Consultation  
Hangars 110 and 114 – Proposed Rehabilitation  
FY11 OMA Packages A-001 & A-003  
Wheeler Army Airfield (WAAF), Island of Oahu  
TMK: (1) 7-7-001:001**

Thank you for the submittal for proposed rehabilitation of Hangars 110 and 114 in Wheeler Army Airfield (WAAF). The hangars were constructed in 1931-32 and are contributing members of the WAAF National Historic Landmark (NHL) district (5/28/1987).

The current scope of work includes the following: replacement of interior light fixtures; upgrading of the electrical system to meet current codes; and replacement of existing compressors and compressor enclosures. The existing lights and hoists are non-original since they have been replaced within the last 10 years.

Given that non-original elements are being replaced, we concur that the determination for the proposed work is **"no adverse effect."** Thank you for the opportunity to comment. Should you have any questions regarding architecture concerns, please call Susan Tasaki at (808) 692-8015.

Sincerely,

A handwritten signature in black ink, appearing to read "Nancy A. McMahon".

Nancy A. McMahon, Deputy State Historic Preservation Officer
